Objective

Enthusiastic front-end developer with hands-on experience building responsive websites using HTML, CSS, JavaScript, and React. Strong understanding of web fundamentals and eager to contribute to real-world projects. Completed several personal and collaborative GitHub projects that showcase clean graphic designer and user-focused design using figma and reactjs.

Education

Computer Science Engineering

Rajiv Gandhi Proudlyogiki Vishwavidyalaya

Sept 2020-June 2024

GPA: 8.14/10.0

Major Project: Student Management System

Skills

Languages and Frameworks: JavaScript, CSS, Tailwind Css HTML, React JS, Node.js, Java

Visualization Tools: Git, VS Code

Others: Communication Skills

Projects

Flora Website

E-Commerce Website

Developed a fully functional e-commerce website using React.js with features like product listings, search, filters, user authentication, and a shopping cart. Implemented a responsive user interface with conditional rendering and dynamic routing using React Router. Integrated Firebase for real-time database and user login functionality. Focused on reusable components, state management, and seamless user experience across devices.

Tools used: React JS

Spotify Clone

Built a visually appealing and responsive Spotify-inspired web application using HTML, CSS, and JavaScript. Used JavaScript for interactive elements such as play pause functionality, progress bar updates, and responsive menus. Designed with a mobile-first approach and smooth CSS transitions to enhance the user experience.

Tools used: HTML, CSS, JavaScript

Movie App

Developed a movie browsing web application using HTML, CSS, and JavaScript, integrated with a JSON-based dataset for dynamic content rendering. Implemented a card-based UI with custom styling, responsive layouts, and Google Fonts for improved aesthetics. Utilized JavaScript DOM manipulation to fetch and display movies dynamically, including titles, genres, posters, and IMDB ratings. Reusable components designed for movie cards with hover effects and clean typography.

Tools used: HTML, CSS, JavaScript

Certificate

Cybrom Technology Certified full-stack web developer with hands-on experience in building responsive and dynamic web applications using HTML, CSS, JavaScript, React.js , Node.js, graphic designer.
